

FARMERS FORM SUB-SOIL CLUB

ARTESIAN SECTION PLANTING GRAINS

Fields of Members in Salt River Valley Will Be Worked in Turn.

Phoenix, Ariz., Nov. 19.—"Sub-soiling clubs" are the latest innovation among Salt River valley farmers. A number of them have been organized, and the importance of sub-soiling, and the yield of hay has increased this season.

Organized Motorcycles of Farmers. Now Arizona is organizing "motorcycles" of farmers to visit fields that have been sub-soiled as well as those that need sub-soiling. The idea is to have a group of farmers, each with a motorcycle, to visit the fields of members in turn, on the principle that many hands make light work. It is claimed that the club idea eliminates much of the expense of sub-soiling, which ordinarily costs from \$2 to \$4 an acre.

Cotton Maturing Slowly. Cotton is maturing with unusual slowness, for some unknown reason, in the Salt River valley this season. Some of the growers are just beginning to pick. Because of small rains, the cotton gin has been running only two or three days a week of late. Within a short time, however, it will be operating at least six shifts a day. Fifty bales shipped to Rhode Island last week, brought a top price.

300 ACRES ARE FARMED AT ARIZONA REFORM SCHOOL

Phoenix, Ariz., Nov. 19.—Three hundred acres of land at the state reform school at Fort Grant have been farmed this year with satisfactory results, according to superintendent T. E. Pulliam. The farm has raised enough produce to supply the tables, and about enough more to provide meat for the coming year.

The Fort Grant reservation, which is now the property of the state, comprises 2000 acres. In another year, according to superintendent Pulliam, he hopes to have the school on a self-supporting basis.

GRAHAM COUNTY INTENDS TO AID LAND LOCATORS

Safford, Ariz., Nov. 19.—The chamber of commerce here is planning to aid applicants for land in locating themselves on good tracts under the desert homestead laws. There are about 7000 acres of such land in Graham county, tributary to mining camps which afford good markets for produce. The land will be parceled out in 40 acre farms and will be given in developing it.

Dandruff Heads Become Hairless

If you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to use Adier-l-ka. This simple remedy is to do this, get about four ounces of ordinary liquid astringent; apply it at night when retiring; use enough to moisten the scalp and rub it gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single skin and trace of it.

You will find, too, that all itching and itching of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid astringent at any drug store. It is sensitive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.—Adv.

MANY IN EL PASO TRY SIMPLE MIXTURE

Many El Paso people are surprised at the QUICK action of simple buckthorn bark, glycerine, etc., as mixed in Adier-l-ka. This simple remedy acts on BOTH upper and lower bowels, removing each surprising foul matter that ONE SPOONFUL, relieves almost ANY CASE, constipation, sour stomach or gas. A few doses often relieve or prevent appendicitis. A short treatment helps chronic stomach trouble. The INSTANT, easy action of Adier-l-ka is astonishing. The Warner Drug Co., 340 El Paso Ave.—Adv.

What Will the Future Hold for You?

That is a vital question that concerns every one who aspires to the better and more stable things of life.—In the busy whirl of the present day one is often apt to disregard the future and live each day for itself. Be not misguided by the thoughtless and extravagant living of others—but come out today with a firm resolve to save something each day and thus prepare for a successful future.

Farmers of Pecos Valley Put in Large Acreage of Oats and Barley.

Artesia, N. M., Nov. 19.—Oats is another crop that Pecos valley farmers are finding pays better than alfalfa. Test fields of oats planted north of here have proved this point beyond a doubt, and many farmers are planning to plant more oats next year.

William Parks, who lives five miles from Artesia, has a stand of oats which made 80 bushels to the acre and the oats were of fine quality. Earl Snyder, with two irrigations, made 102 bushels to the acre, and this tested out three pounds over the government standard weight. He sold his oats by the pound and the yield averaged the same as 115 bushels to the acre because of the excessive weight.

Other small grains are also receiving the attention of the farmers in this section of the Pecos valley. E. B. Bullock, of Artesia, has sold 49,000 pounds of seed oats and 29,000 pounds of seed barley.

Farmers are planning to put in 1000 acres of oats and 500 acres of barley for the next crop. In the Carlsbad section 1000 acres of oats have been put in and the new Lovins elevator will be taxed to its capacity to handle the grain crop next year.

EGYPTIAN COTTON MAKES BALE TO ACRE NEAR FLORENCE

Florence, Ariz., Nov. 19.—Egyptian cotton is coming to the front as one of the Casa Grande valley's important crops. J. K. McCarthy has just picked nearly 20 bales from 10 acres at his farm four miles east of Florence. McCarthy's cotton is being ginned at Mesa and one bale is a part of the Pinal county exhibit at the state fair.

An assured water supply is absolutely necessary in cotton growing. Casa Grande valley farmers are now pumping plants for use when water is not available from the river are in a position to produce a good crop every year.

BIG TURNIPS AND ONIONS RAISED BY HEREFORD MEN

Hereford, Tex., Nov. 19.—Turnips weighing seven pounds each were raised this year by J. H. Boydston, living south of Hereford. Five turnips grown by Boydston had a combined weight of 24 pounds, one of them weighed 17 pounds.

R. T. Mooney, farming one mile east of Hereford, has a record crop of onions this year. The onions are the Red Weatherford Globe variety and six of them weighed 41.5 pounds. He raised two tons.

RANDALL COUNTY MAKES 600,000 BUSHELS OF WHEAT, HALF SOLD

Amarillo, Tex., Nov. 19.—Half of the wheat crop in Randall county has been sold, according to Harmon Benton, farm demonstrator. The crop averaged 20 bushels to the acre, instead of 18 bushels, as had been estimated. The total yield in the county will approximate 600,000 bushels. Randall county also has considerable naturally sub-irrigated alfalfa, which is now being cut.

TWO FARMERS NEAR PORTALES RAISE 7½ POUND TURNIPS

Portales, N. M., Nov. 19.—A. Wallace, on his place south of town, raised a turnip this year that is 27 inches in circumference, and weighs 14 pounds. W. F. Freeman was exhibiting some unusually large turnips that he raised on his farm, and says he has some larger to the Mr. Wallace's. He says that his turnips, which he has been shipping to Clovis, have been averaging about six pounds each.

JOINT FARM ADVISOR IS NAMED FOR TWO COUNTIES

Snowflake, Ariz., Nov. 19.—Charles R. Fuller, of Cochise county, has been appointed by the university of Arizona agricultural extension service as joint farm advisor for Navajo and Apache counties. His headquarters will be in Snowflake. He will advise the farmers in those counties as to the best methods of farming, and it will be one of the finest roads in the state.

LORDSURG-SILVER CITY ROAD TO BE MODEL FOR WHOLE STATE

Lordsburg, N. M., Nov. 19.—A paved automobile and wagon road will be built from here to Silver City and Tylene and it will be one of the finest roads in the state.

The road will be constructed under the supervision of state engineer J. A. French and he plans to make the road a model one, after which the others of the state will be modeled.

OFFICIAL RECORDS

Deaths, Building Permits, Births & Deaths Recorded

Building Permits.

To McCulloch company, to erect a building at West Missouri and Fisher streets, estimated cost \$100.

To C. F. L. Dock, to build a brick bungalow and garage on lots 1 and 2, block 2, Adams Heights, estimated cost \$3500.

To Felix Reyes, to make repairs on roof at 301 San Antonio street, estimated cost \$25.

To W. W. Friggle, to build a porch and make repairs at 2301 Alameda avenue, estimated cost \$150.

To Stanley Deven, to build compressor at southwestern reservoir, estimated cost \$200.

To P. E. Bogardus, to build an apartment building at Roosevelt and Lawton streets, estimated cost \$1500.

To Maximo Elias, to build an adobe on lot 8, block 2, Woodlawn addition, estimated cost \$150.

To Jesus Hernandez, to build a frame room on lot 14, block 2, Cotton addition, estimated cost \$150.

To R. W. Villard, to build a brick bungalow at Cordova and Mandy avenues, estimated cost \$2500.

To Mayfield Building & Improvement company, to build a brick bungalow on lots 3 and 10, block 22, Kern Plaza, estimated cost \$2500.

To Mayfield Building & Improvement company, to build a brick bungalow on lots 1 and 2, block 22, Kern Plaza, estimated cost \$2500.

To Mayfield Building & Improvement company, to build a brick bungalow on lots 1 and 2, block 22, Kern Plaza, estimated cost \$2500.

Relief for Cataract Sufferers Now FREE

Relief for Cataract Sufferers Now FREE

You Can Now Treat This Trouble in Your Own Home and Get Relief at Once.

How the Remedy for Cataract Was Discovered.

THIS terrible disease has raged unchecked for years simply because symptoms have been treated while the cause of the trouble has been left to circulate in the blood, and bring the disease back as fast as local treatments could relieve it.

C. E. Gauss, who experimented for years on a treatment for Cataract, found that after perfecting a "balm" that relieved the nose and throat troubles quickly, he could not prevent the trouble beginning all over again.

On test cases, he could completely remove all signs of Cataract from nose and throat, but in a few weeks they were back.

Careful experiments and investigations have shown that as the troubles were expelled from the nose and throat, the real cause of the disease was overlooked and in a short time the Cataract would return stronger than ever. Mr. Gauss has gone way ahead of the ordinary methods of treatment and has provided a remedy that

Removes the Cause and Immediately Gives Relief to the Nose and Throat

These tones of Scars, Penn., says that after trying the new method, he used this new method and in thirteen years he is now entirely clear and free and is not bothered by the disease any more. The New Combined Treatment with its relief in gold.

Temporary relief from cataract may be obtained in other ways, but the New Combined Treatment must inevitably be accepted for permanent results.

Send the Test Treatment FREE

This new method is so important to the welfare of humanity, so vital to every person suffering from this form of cataract, that the opportunity to actually test it and prove its results, will be gladly extended without any cost of trial.

A large trial treatment, with complete and accurate instructions, will be sent free to any cataract sufferer.

Bedtime Story for the Little Ones

"Uncle Wiggly and the Clothes Sticks"

By HOWARD B. GARIS.

THERE had been a big rain in Woodland, where lived Uncle Wiggly Longears, the rabbit gentleman. The rain had melted all the snow. And then Jack Frost, the little messenger boy, who worked for King Winter, had frozen everything up again. So though there was no tightly again. So though there was no tightly again. So though there was no tightly again.

"What!" cried Nurse Jane. "Fussy Wiggly, the messenger boy, who worked for King Winter, had frozen everything up again. So though there was no tightly again. So though there was no tightly again. So though there was no tightly again."

"Oh, my dear!" cried the rabbit, "and pray, why not?"

"Oh, my dear!" cried the rabbit, "and pray, why not?"

"Oh, my dear!" cried the rabbit, "and pray, why not?"

"Well, it is cold and shivery, for I see you are going to wash the clothes, ready to hang out to dry. Uncle Wiggly, while in the kitchen a lot of clothes were boiling on the stove, to color the clothes pink like a blue-jean's tail."

"I am going to wash and hang the clothes out on the line in the yard to dry," said Nurse Jane. "But I only have to run out for a little while. I am sure that Jack Frost can't get hold of me with his sharp fingers. Besides, I promised Grandfather Goosey Gander I'd come over to see him today."

"Very well, only don't freeze; that's all," he said, and then he went on his way. "I'll try not to," promised Uncle Wiggly.

So while the rabbit gentleman went to see his friend the goose, Nurse Jane began to wash the clothes, ready to hang out to dry. Uncle Wiggly, while in the kitchen a lot of clothes were boiling on the stove, to color the clothes pink like a blue-jean's tail."

"I am going to wash and hang the clothes out on the line in the yard to dry," said Nurse Jane. "But I only have to run out for a little while. I am sure that Jack Frost can't get hold of me with his sharp fingers. Besides, I promised Grandfather Goosey Gander I'd come over to see him today."

"Very well, only don't freeze; that's all," he said, and then he went on his way. "I'll try not to," promised Uncle Wiggly.

ADVICE To the Lovelorn

YOUR TRUE HAPPINESS.

Dear Miss Fairfax: When I was 17 I eloped, and after spending two years with my husband I became discontented and returned home. It was necessary for him to live in the country, and as I had been brought up in a city I missed the thrills and excitement of the city. I am now studying for the stage, at which work my teachers tell me I will be successful. However, I often feel that I should give up this work and return to my husband, although I am sure that I do not love him as a wife should. He wishes former friends to come to his home and his parents wish it also. Should I return to him?

"I am sure you could find the greater happiness at the side of the man you married. The loneliness you feel in the country is by no means so great as the loneliness you feel in the city. You have only your work to console you and no one with whom you really sympathize. You are evidently still in love with the man who cares for you even after your desertion of him."

THINK WELL. I am 24 and love a girl of 17. We expect to be married next year. I see her often and take her to places of amusement, but when I suggest staying at home she seems dissatisfied, and often refuses to answer me. Kindly tell me what to do. G. F. J.

This girl is so very young that she probably considers life nothing but a game. She is evidently still in love with the man who cares for you even after your desertion of him."

THINK WELL. I am 24 and love a girl of 17. We expect to be married next year. I see her often and take her to places of amusement, but when I suggest staying at home she seems dissatisfied, and often refuses to answer me. Kindly tell me what to do. G. F. J.
